SOURCE Regierungsblatt fuer Mecklenburg, No 3, 1952.NEW GDR LAND REGISTER

[Comment: According to an announcement by the Mecklenburg Ministry of Interior, the following municipalities (Gemeindebezirke) have set up uniform cadastres (Einheitskatastere).]

This cadastre is a new kind of land register maintained at district level, to replace the Grundbuch, or the traditional register in which real estate ownership and property rights were listed. It is possible that this change is based on the desire of the Communists to eliminate records showing the status of property rights in East Germany prior to the current regime.]
